

SCHOOL OF CHRISTIAN APOLOGETICS

We rejoice as the School of Christian Apologetics welcomed its 4th batch on the 15th of May, 2025. Dr. Balajied Nongrum conducted the inaugural session on “Apologetics as Missions.”

This year’s SCA is particularly special, as three alumni from previous batches—Mr. Pynshai Joel Dkhar, Mrs. Sally R.M. Kharbhih, and Miss Ridashiha Rymbai—will be teaching sessions themselves. We are also thankful for the continued support of Dr. Mankhrawbor Dunai and Dr. Donrich Kharkongor, who have served in past editions and have once again graciously agreed to help this year. A total of 21 participants from diverse backgrounds have enrolled in the program.

○ FAITH & SCIENCE

We are grateful to God for the enriching session on the topic “Is Science Compatible with Faith?” organized by the Union of Evangelical Students of India (UESI), a unit at North Eastern Hill University, held at Pine Brook, Shillong.

In his session, Dr. Balajied addressed several historical misconceptions regarding the relationship between science and faith. He also emphasized the foundational role that the Judeo-Christian worldview played in the birth and growth of modern science. The session drew participation mainly from master’s degree students and a few research scholars, who engaged actively by posing numerous questions. Many participants testified afterward that their doubts were clarified, and they left with renewed understanding.

SEMINAR

"The Reliability of the Bible"

On the 10th of May, 2025, a seminar on "The Reliability of the Bible" was organized by the Women's Wing of the Bible Society at the Myrdon Pastorate in Meghalaya.

During the session, Dr. Balajied explored the need for the Bible, its various forms, its reliability, and its overarching purpose. The discussion sparked deep interest among the attendees, most of whom were young men and women from five different churches. Many raised thought-provoking questions and expressed gratitude for the answers they received. Several participants also voiced a desire for a more in-depth exploration of the topic in the future.
